

Our My Resource Library Spotlight

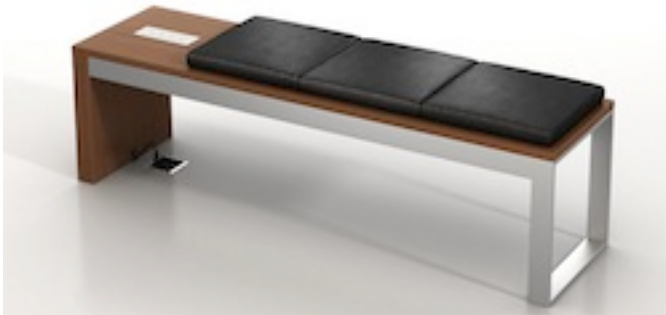

About Nevins:

Founded in 1976, Nevins, is set apart from other furniture manufacturers because of our breadth of product offering. Our line includes tables for conferencing, training and dining, as well as public seating and accessories for lounge settings.

We recognize our industry is always changing, and that to succeed we must constantly adapt to meet customer requirements. This is why our greatest asset is our belief in the idea of “solutions by choices.” This statement signifies our commitment to flexibility; no matter what the requirements are, we can provide attractive and highly competitive solutions for your commercial furniture needs.

The Liv bench is the product we would like to spotlight:

About Liv:

Form & Function: Modern Art You Can Actually Use

We built Liv with power in mind. This bench is fully customizable to maximize your creativity. The sleek combination of artfully geometric carbon steel, wood, leather upholstery & power make Liv a stunning seating option for interiors in need of that extra element of design.

Available in multiple configurations, Liv is an incredibly flexible seating arrangement, in which the upholstered cushions can be specified in any unique combination. Liv offers not only seating, but also a hard, table like surface for the user. Additionally, Liv is able to incorporate power into the seat and manage cords down the leg. As if all of these fantastic features were not already enticing enough, Nevins offers complementary occasional tables, that when paired with Liv, create a complete look. - Designed by Robert Silarski Eno
